

Reptiles

**Lots of wild activities
all about reptiles.**

National Curriculum links to
Science and English.

Please note this book contains activities
for a mix of ages and school years.

Reptile facts

- Nearly all reptiles are cold blooded and cannot regulate their body temperature. To do this they use the sun and shade.
 - Most of them lay eggs except Boas
 - and Pythons
 - Reptiles have skin made up of scales and/or bony plates
 - Also of reptiles are inactive and hibernate in the cold months of the year
 - All reptiles shed their skin as they grow
 - Fossils of reptiles date back to over 312 million years ago.

Reptile Remix

Un-jumble the words below to find the names of some of the worlds reptile species.

**allotters
cowardice**

Canadaon

ecgok

Adm Gordon Koo

rise toot

egret runlet

Aug Ina

ache lemon

Fact Finder

Research the facts below and fill in the gaps

The largest reptile on Earth is the

.....

The smallest reptile on Earth is the

.....

In the UK we have species of native reptiles. The
snakes species are

.....

Temperature can determine if reptile eggs become male or
female. Usually a higher or low temperature produces
.....and a medium temperature produces

.....

Geckos sometimesto
escape predators

Most reptiles lay eggs but some
do give birth to live young.

Sea Turtle Life Cycle

Fill in the chart below to complete the life cycle of a Sea Turtle. Why not write some extra facts in too!

Where in the world?

Lots of people get confused between Crocodiles and Alligators.
Fill in their passports below to help make it less confusing!

<div>Passport Picture</div>	<div>Description of features:</div>
<div>Name: Saltwater Crocodile Home Countries:</div>	<div>Maximum Age:</div>
<div>Favourite Foods:</div>	<div>Passport number:</div>
	<div>Signature:</div>

Extra Alligator facts:

British Reptiles

Adders are one of our native snakes.

Can you research and fill in what a year is like in their life here in the UK? You can draw what they do in each season or write.

Why not do it for some of our other native species too.

Answers and Extra Activities

Reptile Remix

alloters cowardice = Saltwater Crocodile,
canadaon=Anaconda, ecgok=Gecko, rise toot= Tortoise,
adm gordon koo=Komodo Dragon, egret runlet= Green
Turtle, aug lna= Iguana, ache lemon= Chameleon

Fact finder

- 1= Saltwater Crocodile
- 2= Virgin island dwarf gecko or Brookesia
chameleons
- 3= Seven. Smooth, Grass and Adder.
- 4= Male, Female
- 5= lose their tail
- 6= Snakes

Extra Activities

- Make a hibernaculum in your garden for hibernating reptiles.
- Try and make a snake out of recycled materials. You can find
inspiration online.
- Make some turtle bread, here is the recipe link:
www.bettycrocker.com/recipes/turtle-bread
