BUILD A BLACKBIRD NEST

Can you help Matt build a blackbird nest?
Circle the items a blackbird uses to build a nest.

Parents: The items can be
learned about in Fran the
Robin Episode One.

HOW TO MAKE A HEDGEHOG HOME

Parental supervision required: Remember to always ask an adult for help with scissors and for parents, please be cautious of suffocation risks.

WHAT DO I NEED?

- A cardboard box or plastic box
- Scissors
- Black bin liner
- Tape
- Dry leaves or straw bedding
- Creative equipment
- Twigs, sticks and branches

HOW TO MAKE A HEDGEHOG HOME

Step 1:

Find a suitable place to put your hedgehog home. It should be sheltered from the wind and rain. We don't want Hedgehogs getting cold.

Step 2:

Cut a suitable doorway at the bottom of your cardboard box using scissors. Ask an adult to help you with this. The opening should be 5cm x 5cm. This will allow any hedgehog visitors to exit and enter the home as they please.

Step 3:

If you are using a cardboard box to make your hedgehog home. Wrap a black bin liner around it and cut a hole for the door. Tape the bin liner to the cardboard box. This will make your hedgehog home waterproof.

HOW TO MAKE A HEDGEHOG HOME

Step 4:

Using a pair of scissors, poke small holes into the sides of the box (and through the bag) to allow air into the hedgehog home.

Step 5:

Time to Decorate. Design your hedgehog home however you like. You can use stickers, paints and glue leaves and twigs to your hedgehog home.

Step 6:

Once your design is complete and dry, add dry leaves or straw bedding to the inside. These items can be bought from your local craft shop or pet shop.

It is important that we provide hedgehogs with a nice cosy bed to sleep in when they visit.

HOW TO MAKE A HEDGEHOG HOME

Step 7:

Take your hedgehog home outside and place it where you found that suitable spot for it to go earlier. Cover it with twigs, leaves and branches but make sure the entrance to your home is clear. This will protect your hedgehog home.

Well done! You have successfully created a Hedgehog home. I'm certain that any hedgehog visitors will be very impressed with your creation.

MEET THE LEMURS WITH KIRA

A group of lemurs is known as a Conspiracy.

Reaseheath Mini Zoo is home to 5 Ring-Tailed lemurs.

Nez

Favourite Food = Sweet Potato

Least Favourite Food = Peppers
(especially green ones)

Favourite Activity:

Letting everyone else know who's
the boss.

How do you know it's Nez?

Nez has a stripe that looks like a
bar running across the top of his
nose. Can you see it?

Rafiki

Favourite Food = Banana

Least Favourite Food = 'I Eat
Anything and Everything.'

Favourite Activity: Eating. Food is
Life.

How do you know it's Rafiki?

Rafiki has the longest tail out of all
the lemurs. He is also the only one
who has a black tip at the end of
his tail.

Kubwa

Favourite Food = Beetroot

Least Favourite Food = Cabbage

Favourite Activity: Posing for pictures because he's fabulous

How do you know it's Kubwa?:

Kubwa has the shortest tail out of all the lemurs. He also has really short, pointy ears.

Guardian

Favourite Food = Carrots

Least Favourite Food = Baby Corn

Favourite Activity: Using keepers as a jumping platform when they're cleaning his enclosure.

How do you know it's Guardian?:

Guardian has very dark brown eyes. He has a sharp capital M marking on his nose. Can you see it?

Jino

Favourite Food = Strawberries

Least Favourite Food = Green Beans

Favourite Activity: Catching the sun's rays (sunbathing) during the summer.

How do you know it's Jino?:

Jino has the lightest eyes of all the lemurs. He also has an ear notch in his left ear. Most importantly, he's always the first lemur up to greet the keepers when doing their morning checks.

Try and Identify
the lemurs when
you next visit

**Reaseheath
Mini Zoo**

WORDSEARCH WITH RAFIKI

Help Rafiki the ring-tailed lemur find the words.
Circle the words when you find them.

HOW TO MAKE A PORCUPINE SHAKER

Parental supervision required: Remember to always ask an adult for help with scissors and for parents, please be cautious of suffocation risks.

WHAT DO I NEED?

- A small cardboard tube (toilet roll or empty sweets tube).
- Tape
- Tissue Paper or Thin Cardboard Sheet
- Scissors
- Rice
- Creative Equipment

HOW TO MAKE A PORCUPINE SHAKER

Step 1: Find a tube or cardboard roll that you can use to make a porcupine shaker. It can be any size you'd like.

Step 2: Decorate your shaker however you like. You can use paints, stickers and coloured paper.

Step 3: Once your shaker has been decorated and has dried, fill one end of your shaker with tissue paper to stop the rice from falling out.

If you don't have tissue paper, ask a responsible adult to help you cut out a shape for the bottom of the tube.

HOW TO MAKE A PORCUPINE SHAKER

Step 4: Tape that bottom end shut. Make sure the tape covers the bottom of the tube. We don't want any rice to spill out when we fill the tube up later.

Step 5: Fill the shaker with rice until it almost reaches the top. This is what will give your shaker its sound. Ask an adult for help with this part.

Step 6: Just like before, fill the open end of your shaker with tissue paper or ask a responsible adult to help you cut out a shape for the top of the tube.

HOW TO MAKE A PORCUPINE SHAKER

Step 7: Tape the ends shut. Make sure the tape covers the whole top of the tube. We don't want any rice to spill out when you try your shaker.

Step 8: Now to test your Porcupine Shaker. Hold it in your hand and give it a shake. Listen to the sound it makes.

Well done! You have successfully created a Porcupine Shaker. I'm very impressed with what you have created.

WILDLIFE WATCH WITH FRAN

You may have seen some of my other friends in your garden or when out walking. Try and see if you can spot them all.
