Why Reaseheath?

By studying an adult leisure course or professional qualification at Reaseheath College, you will be taught by expert teaching staff and gain hands-on experience using our outstanding facilities.

You will also study on our beautiful campus, and benefit from our undivided support and commitment to ensuring you achieve your goals.

Just some of the many reasons we are a popular provider of adult courses include:

- The wide range of courses and study options we offer
- The leading-edge facilities we have recently invested in across all course areas
- Our experienced teaching staff have a wealth of industry experience to pass on to you
- Our huge campus surrounded by nature is a great place to study
- The financial support options we have available

Study options

We offer a range of courses at Reaseheath College, from part-time adult leisure courses, professional qualifications, Level 3 courses equivalent to A Levels, apprenticeships and degrees, so whatever your personal circumstances and reasons for wanting to learn, we have a study option to suit.

Facilities on-site include:

- Construction Centre and Innovation Hub
- Advanced Engineering and Agri-Tech Centre
- Sports Science and Performance Academy with sports pitches, sports hall, fitness studio and fitness testing centre
- National Centre for Horticulture, the Environment and Sustainable Technology
- British Retail Consortium Grade AA Certified Food Centre
- Immersive classroom
- Vertical farm and glasshouses
- Commercial farm and robotic milking system
- Licensed zoo with veterinary laboratories
- Equestrian Centre
- Motor vehicle workshops
- Engineering Apprenticeship Academy

If you want to study an adult course or professional qualification on a beautiful campus, surrounded by nature with a huge range of leading-edge technology and equipment relevant to your chosen course, Reaseheath College is the place for you.

Over recent years we have invested over £80 million into our facilities and resources, to provide you with the best learning experience possible.

‘Study for a professional qualification on a beautiful campus, surrounded by nature’

How to fund your future

Whether you want to study a part-time leisure course or a full-time professional qualification, you may be able to benefit from one of our financial support options.

College Bursary Fund

You may be entitled to receive financial support to study your Level 3 qualification, which can help with things such as;

- **Childcare, if you are under the age of 20 at the start of your course**
- **Course materials, uniform or equipment**
- **Travel costs**
- **DBS fees**
- **Some educational visits**

Free courses available

If you are aged 19 – 23 and want to study your first full Level 2 or 3 qualification, you may be entitled to study for free. Free courses may also be available if you are currently earning less than £20,319* or you are unemployed.

Advanced Learner Loan

If you are aged 19 or over and want to study a Level 3 qualification, the Advanced Learner Loan could cover your tuition fees to help support you in a change of career.

With an Advanced Learner Loan;

- **You don't pay back a penny until your income is over £27,000 a year**
- **No credit checks and a low interest rate**
- **Your household income isn't taken into account**
- **You can fast-track your career**

Advanced Learner Loans are also available for our Level 3 Access to Higher Education Diploma, and if you successfully complete a degree after the course, the outstanding balance from this loan will be written off. Find out more about our Access to Higher Education Diploma on page 16.

Once you have found the course for you, you will be ready to enrol. Some courses may require you to complete a short application form. Once we have received your application a member of our team will be in contact to discuss your next steps.

If you need any support with the application process you can ring our friendly team on **01270 613242** who will be happy to help you apply for your course.

Please visit our website at: www.reaseheath.ac.uk/adult where you will be able to find your course and register your place

*Please note income eligibility may vary depending on where you live

Level 3 study options

If you're an adult learner over the age of 19, and don't have a Level 3 qualification, you could study one of our Level 3 diplomas in a range of course areas for free.

If you do already hold a Level 3 qualification, but you wish to study a course from the list opposite perhaps to help you with a career change, you may still be able to study with us and receive financial assistance to complete the qualification. Find out more about your funding options on page 6.

Are you under the age of 19?

The courses listed opposite are also all available for learners aged 16 – 19, in addition to a range of exciting T Level qualifications including:

- Management and Administration
- Design, Surveying and Planning
- On-site Construction
- Food Sciences
- Land-based Engineering
- Tree and Woodland Management and Maintenance
- Agriculture

We offer Level 3 courses in:

- ✓ Animal Management
- ✓ Equine
- ✓ Veterinary Nursing
- ✓ Forestry and Arboriculture
- ✓ Environmental Conservation
- ✓ Floristry
- ✓ Horticulture
- ✓ Adventure Sports
- ✓ Personal Training
- ✓ Public Services
- ✓ Sport
- ✓ Bakery, Pâtisserie and Confectionery
- ✓ Business with Events and Tourism
- ✓ Motor Vehicle
- ✓ Construction

To view the full list of courses we offer, visit our website at www.reaseheath.ac.uk

Level 3 study options

Sarah Harry and Zoe Hall

Qualification:
Level 3 Advanced Technical Diploma in Floristry 2020

Job titles:
Co-owners of Bramble & Blooms, Tarporley

"We opened our own artisan floristry shop in 2019 while still studying part-time for our Level 3 Diploma. We met at college and discovered we both wanted to own a floristry shop offering rustic floral designs for weddings and events.

'We both have three children so chose part-time study to fit in with domestic duties.'

"The business has flourished beyond all expectations. We've moved to a new high street location in Tarporley and have also taken on another former floristry student as a staff member. In 2021 we won third in the British Florist Association's 'Retail Shop of the Year' and were invited to join the Good Florist Guide. Both are very prestigious within the industry and are awarded for high standards and excellent designs.

"We both have three children so chose part-time study to fit in with domestic duties. Learning specific business skills, such as how to prepare a wedding contract and consult with clients, were as important as the practical elements and helped us to get to where we are today."

Apprenticeships

Apprenticeships are an excellent way to gain a nationally recognised industry qualification and valuable workplace skills, all while earning a wage!

Training you in the skills employers want, apprenticeships give you choices in your career. Following your apprenticeship, you could continue working for your employer or go on to higher education in a college or university.

Apprenticeships are designed to allow you to 'earn while you learn' with most of your time spent at your workplace.

If you are working 30 hours or more a week in one of our course areas, you can begin an apprenticeship at Reaseheath.

The delivery of our apprenticeships varies across the different programme areas we offer, which range from Animal Care, Food Technology, Construction, Equine, Horticulture, Engineering, Agriculture and more.

For many of our apprenticeships you will come into college one day a week, while some are studied in block release and others delivered entirely in the workplace.

Dependent on your entry qualifications you may also study Functional Skills in English and Maths alongside your programme of study.

Find out more about studying an apprenticeship with Reaseheath College at www.reaseheath.ac.uk/apprenticeships

Apprenticeships

Sharlene Harrison

Qualification:
FdSc Food Technology and Management (Eden programme)

Job title:
Technical and Development Officer for Müller Milk & Ingredients

"This apprenticeship has meant a lot to me both personally and professionally.

'Studying hands-on in Reaseheath's industry standard food production halls with the support of dairy specialists gave me a unique opportunity to gain the practical understanding I needed'

"Although I could have got a job with the academic degrees I already had, I wanted to develop competence in the actual application of food science. Studying hands-on in Reaseheath's industry standard food production halls with the support of dairy specialists gave me a unique opportunity to gain the practical understanding I needed to take my career forward.

"I now have the opportunity to work nationwide across Müller's dairies, delivering training, leading project work and developing our new team of dairy technology apprentices within Müller."

Pursue your passion for the land-based sector with a degree at UCR.

At University Centre Reaseheath, we offer a range of progressive land-based degrees, taught by industry expert staff in leading-edge innovative facilities, which equip our passionate undergraduates with the skills and expertise to pioneer positive transformation across the land-based industries.

We offer degrees and higher apprenticeships in areas such as Animal Science, Agriculture, Food Science, Landscape Architecture, Canine Behaviour, Wildlife Conservation, Veterinary Nursing and many more, all of which lead to our confident graduates progressing into successful and rewarding careers.

University Centre Reaseheath welcomes students of all ages. Being an intrinsic part of the Nantwich community, we welcome a high percentage of local adult learners onto our undergraduate courses.

As a mature student, you will be equipped with many skills and valuable qualities gained from work and family life. Our courses will give you the confidence to progress your career or simply explore your passion.

Our adult learners come from a variety of backgrounds, studying various subjects, both full and part-time. At UCR, you'll find an inclusive and purposeful learning environment, with specialist facilities, strong links with employers and industry-relevant programmes that offer transferable skills.

Find out more at ucreaseheath.ac.uk

Ciara Sheard

Qualification:
FdSc Zoo Management

"When I applied to study at University Centre Reaseheath, I was working in the recruitment industry which I wasn't really passionate about and I wanted to change my career path to work with animals again in a Zookeeper role.

'University Centre Reaseheath offers a wide range of Animal Science degrees and has a brilliant on-site mini zoo with a huge number of different species'

"University Centre Reaseheath offers a wide range of Animal Science degrees and has a brilliant on-site mini zoo with a huge number of different species, including reptiles, amphibians, mammals and birds of prey, so it really stood out to me as the place to study and prepare for employment in the zoo industry.

"In my free time, I volunteer in Reaseheath's mini zoo two days a week as well as one day at week at Welsh Mountain Zoo for extra experience, which is really rewarding and will help me find employment quickly after I graduate.

"I am so happy that I applied to UCR when I did, and I am excited for my future career now. If you are thinking about studying a degree, perhaps to help you with a career change like me, I would really recommend applying to UCR. It's a big decision, but I am sure you won't regret it!"

Around
30%
of our student intake
each year are mature
students

If your sights are set on studying a degree, but you need further qualifications first, don't worry – our Access to Higher Education Diploma is your launchpad for higher level study!

Whether you want to study a degree to secure graduate-level employment, to pursue your passion for the land-based sector or to develop your academic skills and knowledge, we are here to help at UCR.

By studying a wide variety of land-based units, you will be well prepared to study a degree and progress into employment in areas such as Environmental Conservation, Animal Welfare, Sustainable Agriculture and many more.

Find out more at: ucreaseheath.ac.uk/access-to-higher-education-land-based

Advanced Learner Loans are available to help you study our Level 3 Access to Higher Education Diploma, and if you successfully complete a degree after the course, the outstanding balance from this loan will be written off.

Selina Royle

Access to Higher Education 2019

BSc (Hons) Wildlife Conservation 2022 (First Class)

Dean's Award for Outstanding Achievement in Undergraduate Research 2022

"I've always wanted to be involved with natural history but I didn't realise that it could offer me a career until now. My degree course was really good because it had a good mix of relevant practical and theory sessions. I also enjoyed being at a smaller university because you get one-to-one attention and support from the lecturers, who are all brilliant.

"I'm a mother of four and I hadn't previously studied to degree level, so I was expecting challenges. But my Access to HE course at University Centre Reaseheath prepared me well and I achieved far more than I thought possible.

"I'm interested in connecting more people to nature and I'd like to take this forward. I'm considering continuing onto a Master's degree and from there possibly into teaching."
