

REASEHEATH COLLEGE PUBLICATION SCHEME

This Publication Scheme has been produced in accordance with the Freedom of Information Act 2000.

<u>Information Commissioner's Office (ICO) Model Publication Scheme</u>

Reaseheath College has adopted the ICO's Model Publication Scheme, which can be found on the ICO's website at

https://ico.org.uk/for-organisations/guide-to-freedom-of-information/publication-scheme/

The model publication scheme provides a list of the information routinely published by colleges which the ICO expects them to make available unless:

- They do not hold the information
- The information is exempt under one of the FOI exemptions or Environmental Information Regulations (EIRs) exceptions, or its release is prohibited under another statute
- The information is archived, out of date or otherwise inaccessible; or
- It would be impractical or resource-intensive to prepare the material for routine release.

The ICO's Model Publication Scheme commits an authority:

- To proactively publish or otherwise make available as a matter of routine, information, including environmental information, which is held by the authority and falls within the classifications below.
- To specify the information which is held by the authority and falls within the classifications below.
- To proactively publish or otherwise make available as a matter of routine, information in line with the statements contained within this scheme.
- To produce and publish the methods by which the specific information is made routinely available so that it can be easily identified and accessed by members of the public.
- To review and update on a regular basis the information the authority makes available under this scheme.
- To produce a schedule of any fees charged for access to information which is made proactively available.
- To make this publication scheme available to the public.
- To publish any dataset held by the authority that has been requested, and any updated versions it holds, unless the authority is satisfied that it is not appropriate to do so; to publish the dataset, where reasonably practicable, in an electronic form that is capable of re-use; and, if any information in the dataset is a relevant copyright work and the public authority is the only owner, to make the information available for re-use under a specified licence. The term 'dataset' is defined in section 11(5) of the Freedom of Information Act. The terms 'relevant copyright work' and 'specified licence' are defined in section 19(8) of that Act.
